5 GOOD REASONS TO CHOOSE CAPRI ON BOARD

■ **Safety** - Fully insured and licensed, our experienced team offers 24/7 assistance to ensure a flawless experience. With privileged access to boarding gates, our guests embark smoothly and without stress. We operate from the most prestigious marinas and use only private docks, guaranteeing safety, privacy, and total peace of mind.

■ **Flexibility** - We tailor our services to meet the specific needs of each client and the evolving demands of the travel market, building long-lasting relationships founded on mutual trust. Peace of mind is ensured thanks to our in-depth knowledge of the territory, seamless logistics, and a dedicated professional team. We offer simplified contracts, fully customized itineraries, and operate with complete transparency. Our all-inclusive rates are designed to deliver clarity and confidence—no surprises, just exceptional service.

■ **Fleet** - With deep expertise in the yachting industry and luxury lifestyle, we offer full Yacht Management, Central Agency services, and direct partnerships with over 100 yachts and luxury vessels across Italy's most iconic destinations. Each yacht is operated by a highly professional crew, ensuring the highest standards of service. Our intimate knowledge of Mediterranean cruising grounds allows us to craft bespoke itineraries, turning every charter into an unforgettable experience tailored to the desires of each guest.

■ **Know-how** - With over twenty years of hands-on experience, we are a trusted company renowned for our deep understanding of the region. One of our greatest strengths—refined and expanded over the years—is logistics. We ensure smooth and efficient coordination thanks to our direct presence in three key marinas: Naples Marina di Stabia, Capri Marina Grande, and Marina di Arechi on the Amalfi Coast. This strategic network allows us to guarantee efficiency, flexibility, and impeccable service at every stage of the journey.

■ **Passion** - We are a close-knit, highly skilled team driven by passion and purpose. We genuinely love what we do, and we value those who bring the same energy, dedication, and enthusiasm to their work. Excellence is our shared mindset—delivered with heart, every single day.

CEO & Managing Director

COMPARATIVE TABLE

Capri on Board: the perfect partner for a seamless yachting experience

Our comparative table clearly highlights how Capri on Board stands out in the world of high-end yacht chartering. Not only do we own a curated fleet, but as a fully licensed agency with privileged access to over 200 yachts, Capri on Board guarantees **personalized service, security, and flexibility** tailored to every client's needs. With a strong presence in the most exclusive marinas – Capri, the Amalfi Coast, Naples, and Salerno – we ensure **direct, continuous assistance**, offering impeccable hospitality and seamless operational support throughout your journey. Moreover, thanks to our **full insurance coverage** – for both our owned fleet and third-party yachts managed through regulated contracts – we provide **maximum protection and peace of mind** to all our guests. Unlike traditional charter companies, often limited to a small fleet and a single operational base, Capri on Board delivers a **bespoke, refined, and reliable experience**, ideal for those who seek only the very best at sea.

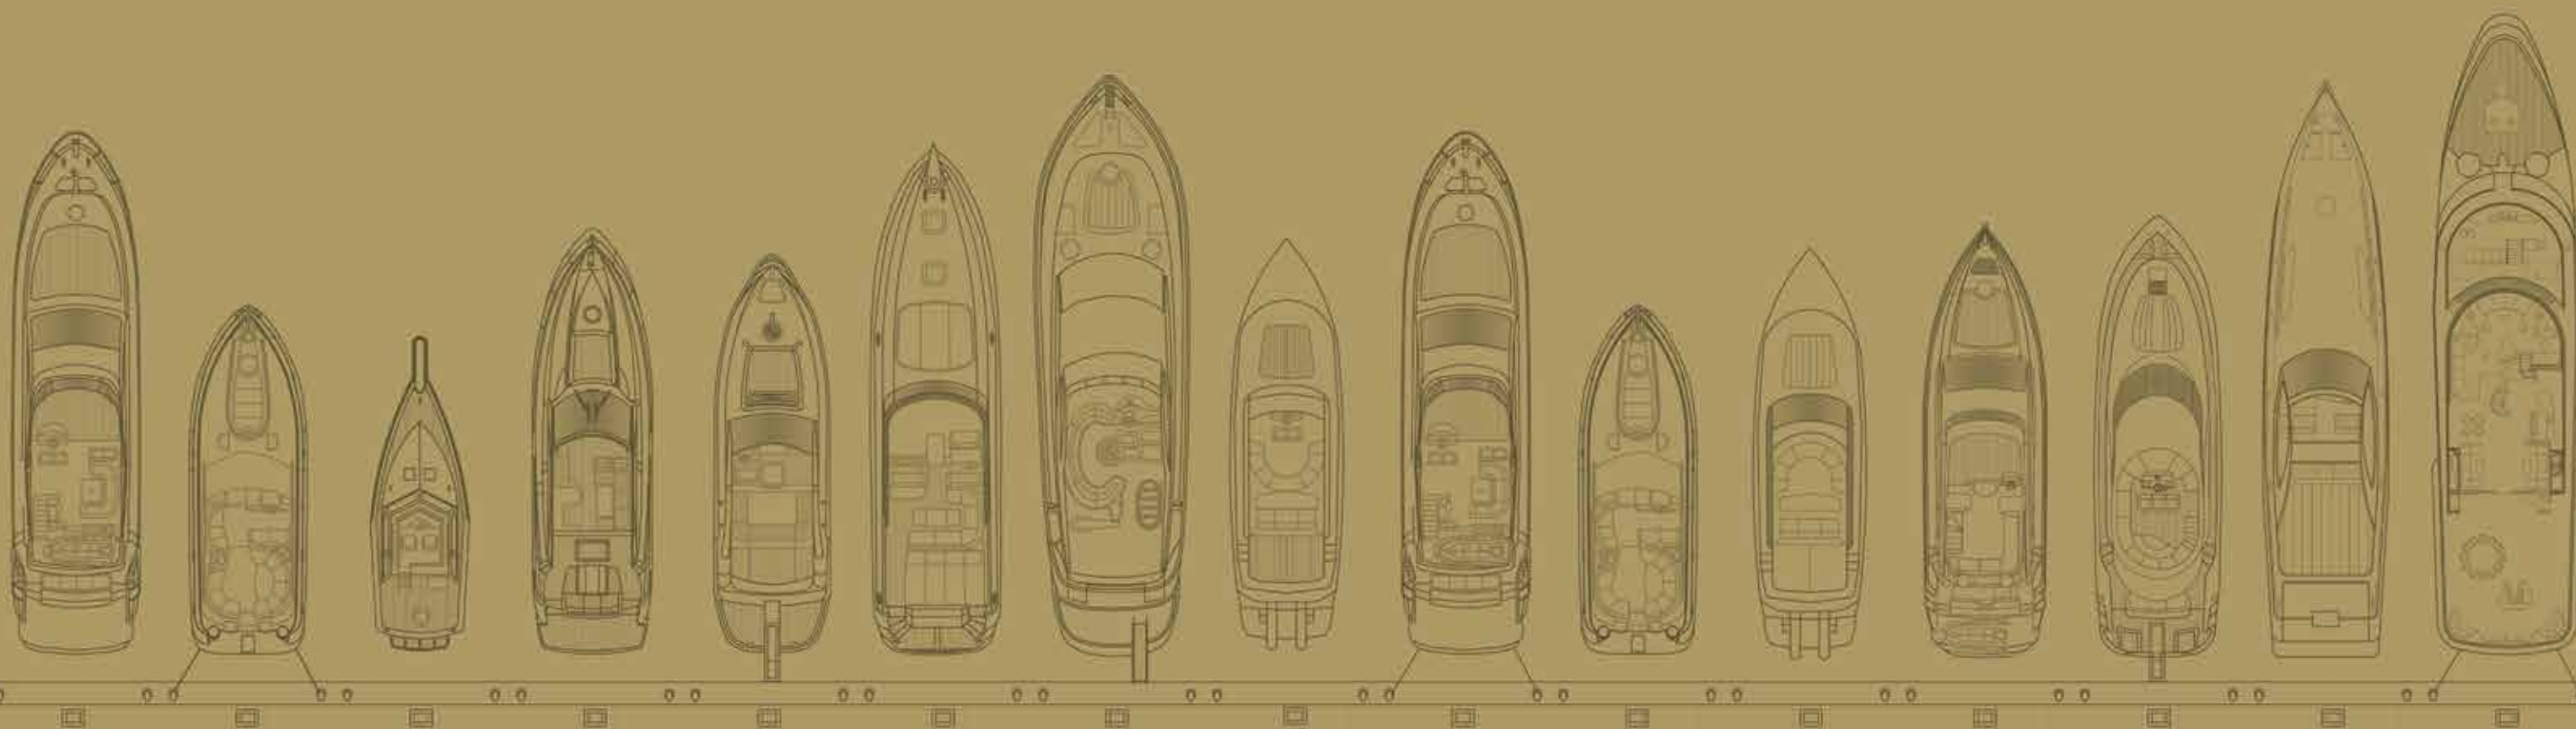

With Capri on Board, every journey becomes an exclusive experience, crafted entirely around your desires.

	CAPRI ON BOARD	RENTAL COMPANY	NAUTICAL BROKER
Yacht Ownership	A fleet selected according to Capri on Board's standards, with a portfolio of over 200 yachts, capable of offering tailor-made solutions for every navigation need in the most exclusive areas of the Mediterranean. Capri on Board directly owns the yachts it offers for charter and, thanks to its structure, is also able to promote and market third-party yachts through co-management agreements, working directly with the owners. In addition to being an owner, Capri on Board operates as a licensed and authorized agency, qualified to manage brokerage between yacht owners and agencies or final clients.	Limited fleet (an average of 5 boats). A charter company is typically a small or medium-sized business and generally manages a limited fleet, often consisting of around 5 owned vessels. Due to their limited size, in the event of high demand or overbooking, they are often forced to rely on third-party boats, partnering with other companies to temporarily expand their offering. This operational model results in variable availability and a service quality that may depend on external providers.	The yacht broker is not a direct owner but operates exclusively as an intermediary between the client and charter companies or yacht owners. Thanks to an international network, the broker has access to a very wide portfolio of yachts, without the constraints of direct ownership, but bound to operate under very restrictive contractual terms.
Access to other Yacht Owners	A wide portfolio of over 200 yachts, enabled by our agency license, with coverage across the entire Mediterranean. The business is structured to support the B2B market, offering qualified and flexible contractual consultancy in full compliance with international standards. In the case of brokerage intermediation, Capri on Board ensures transparent procedures, legal protection, and full regulatory compliance, including with MYBA contracts.	Access possible only through occasional and limited contracts, often unstructured, with complex management especially when activities take place outside the area of competence.	It can offer virtually unlimited access to yachts of various categories, types, and geographic areas, very often using the MYBA platform.
Logistics & Service	4 strategic bases: Capri, Amalfi Coast, Naples, Salerno. Capri on Board guarantees impeccable service thanks to the direct presence of its qualified staff in the most strategic marinas of the Mediterranean. With over four active logistical bases – Capri, Amalfi Coast, Naples, and Salerno – it ensures continuous support, smooth operations, and a high-level welcome from the very first moment on board.	A single operational base. The vast majority of charter companies operate from a single logistical base, a choice that significantly limits their ability to provide timely support, operational flexibility, and high-level service across multiple destinations. This centralized approach can result in delays, lack of on-site assistance, and a less personalized experience for the client – especially in the most exclusive and in-demand locations.	No direct operational bases: the broker coordinates embarkation and support relying on the Captain or onboard crew or personally.
On-site support	In-house staff present in the main ports.	Remote or no support outside the base.	The broker does not have its own staff in the ports but provides support through local correspondents and trusted suppliers.
Licenses and legal authorizations	Specialized nautical agency, authorized and fully licensed for brokerage. It ensures transparent contracts, client protection, and tailored solutions with carefully selected yachts, exclusive itineraries, and continuous assistance.	Not authorized for brokerage or tourist packages.	The broker is authorized to conclude brokerage contracts but cannot directly provide ancillary services or tourist packages except through authorized operators.
Contracts	All-inclusive “no surprises” package.	Standardized, limited to its own fleet.	Standard and inflexible: charter price + VAT + APA
Commissions	Competitive Commissions – Fair and flexible arrangements. 10% / 15% / 20% depending on the operator or agency.	10% / 15% / 20% depending on the operator or agency.	3% / 5% / 10% / 15% depending on whether the yacht is in central agency or not.
Insurance coverage – client protection	Comprehensive insurance coverage on all vessels, both owned and managed under regulated contracts on behalf of third parties. The policy provides full coverage for third-party liability, material damage, and passenger protection, with limits exceeding €2 million per passenger, extending protection to both maritime and onshore activities. Unlike most charter companies, which insure only their own units and operate under contractual limitations when using third-party yachts, Capri on Board guarantees full protection across the entire fleet, including vessels managed under formal management and brokerage agreements. Thanks to its status as an authorized and fully licensed agency, every charter is governed by clear, transparent contracts compliant with current regulations, ensuring clients maximum protection, safety, and peace of mind at every stage of the rental.	Standard insurance coverage on owned yachts. Traditional charter companies are generally covered by insurance policies limited exclusively to their own units. In cases of high demand or overbooking, the use of third-party yachts may involve insurance risks. It is important to note that a charter company not authorized for brokerage cannot offer tourist packages or manage additional services, resulting in operational limitations and reduced client protection in terms of insurance.	Insurance coverage is provided by the shipowners or charter companies with which the broker collaborates: the broker itself does not provide direct policies but ensures that every yacht is properly insured. Likewise, the nautical broker is not authorized for brokerage and cannot offer tourist packages or manage additional services.
Overbooking management Handling of unforeseen events, e.g., yacht breakdown	Operational flexibility and immediate access to selected yachts. Capri on Board guarantees total flexibility in charter management, thanks to an exclusive network of verified partners selected according to strict quality and safety standards. This approach allows immediate access to a wide range of vessels, both owned and managed through official agreements with third parties, without operational limitations or bureaucratic delays. Every yacht in the network undergoes prior contractual and insurance assessments, with full maritime and onshore coverage, ensuring maximum safety and compliance with current regulations. Centralized management through Capri on Board allows coordination of last-minute bookings, overbooking, and itinerary customizations, always maintaining high service standards and legal protection. In summary, the combination of a carefully selected partner network, contractual flexibility, and advanced insurance coverage enables Capri on Board to offer fast, safe, and fully customizable charter solutions.	Limitations in handling extra requests and last-minute bookings. Traditional charter companies often face significant operational restrictions when managing extra requests or last-minute bookings, due to the inability to quickly access third-party yachts, even during periods of high demand. There is also greater exposure to legal risks and limited client protection, as any modification or extraordinary request may require additional contracts or external approvals.	The broker, not having its own fleet, relies on the availability of the Yacht Portfolio. However, it can offer immediate alternatives in case of unforeseen events, by changing the vessel or even refunding the charter, as broker contracts do not include an obligation for replacement.
Guest Experience	Capri on Board stands out for its advanced all-inclusive formula, designed to offer a complete and personalized nautical experience that goes far beyond the simple charter of a vessel. Each charter integrates tailor-made services, including: <ul style="list-style-type: none">All-Inclusive pricing with no surprisesHigh-level onboard welcome, with selected crew and dedicated trainingContinuous support throughout the navigation, ensuring constant safety and comfortCustomization of additional services, such as bespoke itineraries, experiential activities, gourmet catering, and logistical supportIntegrated booking management and operational coordination, ensuring efficiency and full regulatory complianceThis combination of flexibility, premium quality, and direct oversight allows Capri on Board to offer an exclusive and secure charter package, capable of meeting even the most sophisticated demands of an international clientele.	Operational limitations of traditional charter companies. A traditional charter company operates exclusively with its own fleet of vessels, which entails significant restrictions in terms of availability and flexibility. This rigidity limits the ability to respond to personalized requests, last-minute bookings, and itinerary adjustments—elements that the contemporary nautical market demands to ensure tailor-made experiences and maximum client satisfaction.	The client experience largely depends on the quality of selected partners: the broker can offer highly personalized packages, but the final level of service is determined by the chosen charter company or yacht owner.
