COMPARATIVE TABLE

Capri on Board: the perfect partner for a seamless yachting experience

Our comparative table clearly highlights how Capri on Board stands out in the world of high-end yacht chartering.

Not only do we own a curated fleet, but as a fully licensed agency with privileged access to over 200 yachts, Capri on Board guarantees **personalized service, security, and flexibility** tailored to every client’s needs.

With a strong presence in the most exclusive marinas – Capri, the Amalfi Coast, Naples, and Salerno – we ensure **direct, continuous assistance**, offering impeccable hospitality and seamless operational support throughout your journey.

Moreover, thanks to our **full insurance coverage** – for both our owned fleet and third-party yachts managed through regulated contracts – we provide **maximum protection and peace of mind** to all our guests.

Unlike traditional charter companies, often limited to a small fleet and a single operational base, Capri on Board delivers a **bespoke, refined, and reliable experience**, ideal for those who seek only the very best at sea.

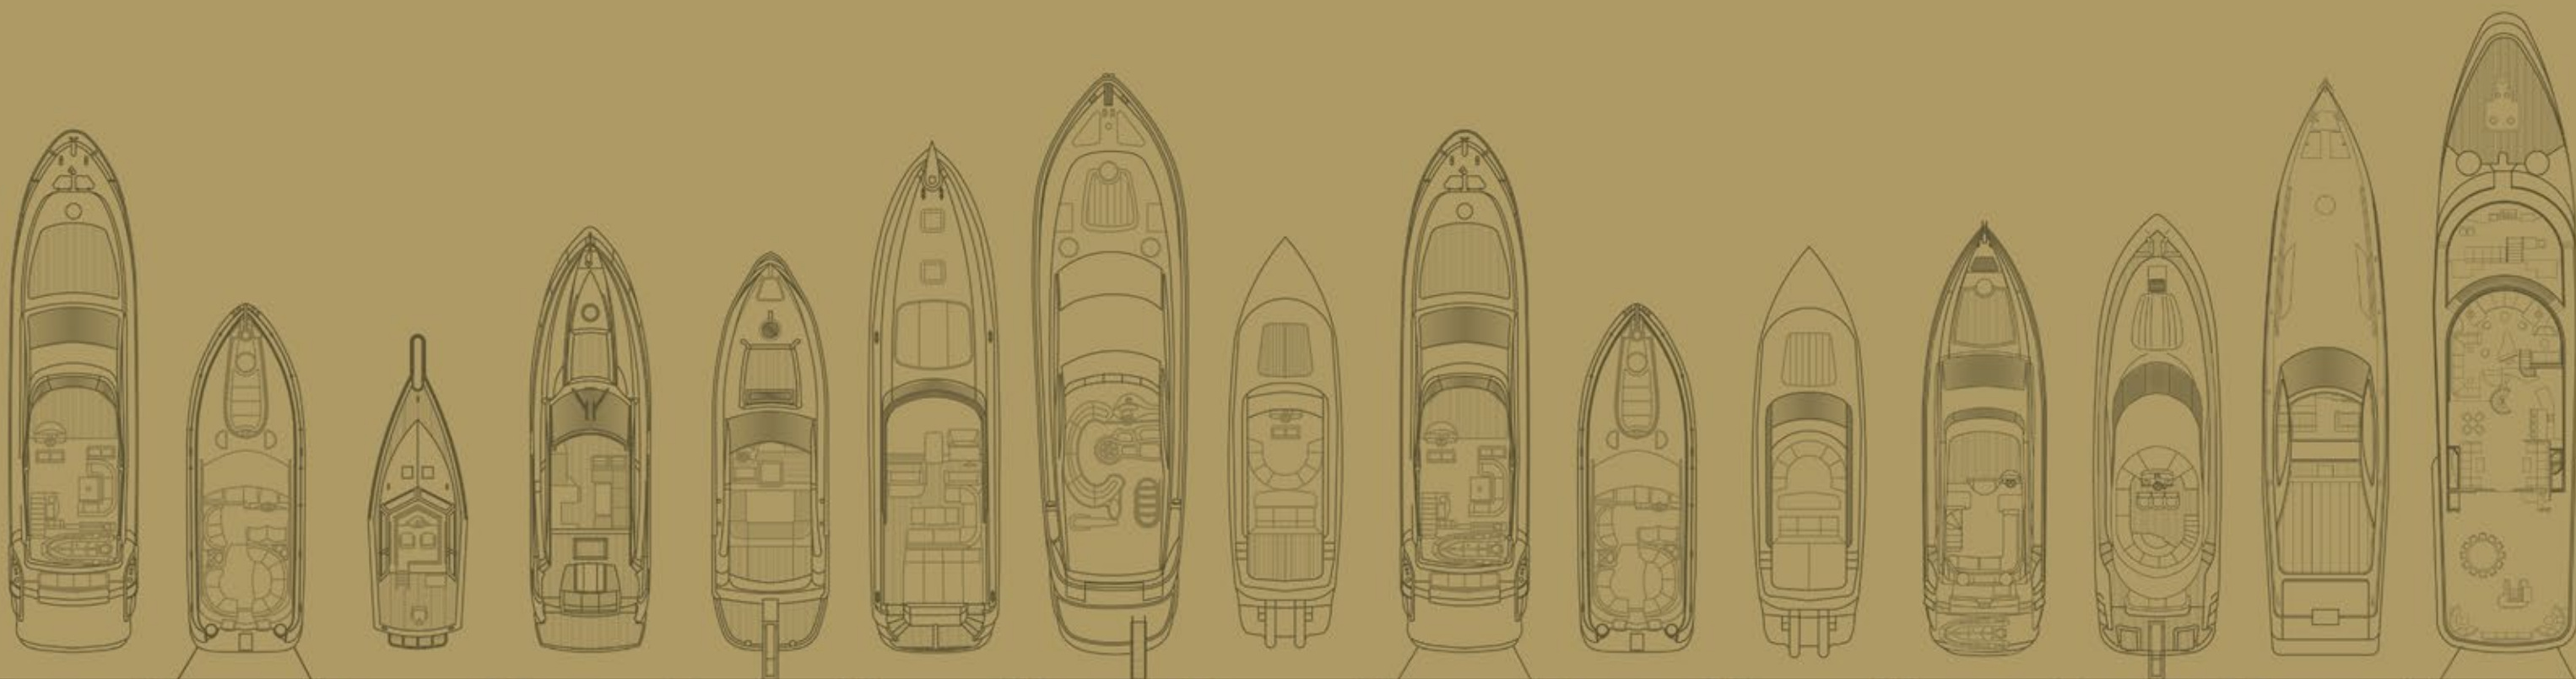

With **Capri on Board**, every journey becomes an **exclusive experience**, crafted entirely around your desires.

	CAPRI ON BOARD YACHT MANAGEMENT COMPANY	TRADITIONAL CHARTER COMPANY
■ Yacht Ownership	Owns a curated fleet of yachts Much more than a Charter Company Capri on Board directly owns the yachts it offers for charter and is also able to promote and manage third-party vessels through co-management or central agency agreements. In addition to being yacht owners, Capri on Board operates as a fully licensed and authorized agency, acting as an intermediary between yacht owners and agencies or end clients. With a curated portfolio of over 200 yachts, the company delivers tailor-made solutions to meet every yachting need across the most exclusive corners of the Mediterranean.	Limited fleet (around 4-5 boats) A charter company is typically a small-scale operation with a limited fleet, often consisting of an average of five owned yachts. Due to their compact structure, these companies rely on third-party vessels during periods of high demand or overbooking, partnering with other operators to temporarily expand their offering. This operational model results in variable availability and a level of service quality that may depend on external providers.
■ Access to Additional Yachts	Extensive portfolio of over 200 yachts thanks to licensed agency status.	Only through occasional, non-structured agreements.
■ Logistics Presence	4 strategic bases: Capri, Amalfi Coast, Naples, Salerno Capri on Board ensures efficient operations and top-tier service through the direct presence of its qualified staff in the most strategic marinas of the Mediterranean. With over four active logistical hubs – Capri, the Amalfi Coast, Naples, and Salerno – the company offers continuous support, smooth embarkation procedures, and a warm, high-end welcome from the very first moment on board.	Single operational base The vast majority of charter companies operate with a single logistical base, which often limits their ability to provide timely assistance, flexibility, and high-level service across multiple destinations. This centralized approach can result in delays, lack of on-site support, and a less personalized experience for the client—especially in the most exclusive and in-demand locations.
■ On-Site Assistance	In-house staff present at major marinas.	Remote or no assistance outside main base.
■ Licensing & Authorizations	Fully licensed agency , authorized for brokering and tourism services.	Not authorized to broker or offer packaged services.
■ Insurance Coverage	Full insurance for owned yachts; third-party yachts covered via regulated contracts Full Insurance Coverage: Unlike most charter companies, which provide insurance only for their own vessels and operate with limitations when using third-party yachts, Capri on Board is fully insured – both for its own fleet and for yachts managed through official agreements. Thanks to its status as a licensed and authorized agency, every charter is governed by transparent contracts fully compliant with current regulations, ensuring clients the highest level of protection and peace of mind throughout every stage of the rental experience.	Coverage limited to own fleet only Charter companies are insured exclusively for the yachts they own. In the case of high demand or overbooking, the use of third-party yachts is only permitted through specific contractual agreements, as required by current regulations. It is important to note that a charter company is not authorized to act as an intermediary or offer travel packages unless expressly licensed to do so, which results in limitations in service management and reduced client protection.
■ Overbooking Management Handling of unexpected events: for example, a mechanical issue or breakdown of a yacht	High flexibility with immediate access to trusted partner yachts.	Difficulty managing extra or last-minute requests.
■ Client Experience	Tailor-made service, high-level hospitality, and constant onboard presence: Capri On Board stands out with its all-inclusive formula, offering a comprehensive range of personalized services in a single exclusive package—going well beyond standard yacht rental.	Inconsistent experience, reliant on external providers. A standard yacht charter company typically offers a fragmented experience, often relying on third-party providers. This results in limited flexibility and an inability to deliver fully personalized service packages tailored to the client’s needs.
