

Ser Casasandra

CONNECT WITH YOUR INNER PEACE

The genesis of Ser Casasandra lies in the inspiration of the person who made it possible, the Cuban writer and artist Sandra Pérez Lozano. Founded as an artist's home, it is the ideal place to connect with the peace and love that lives in each one of us.

The hotel's design is carefully studied by Sandra Pérez herself, who chooses works by artisans and writers from all over the world without taking away from the local style. Luxury is in the small details: furniture by Patricia Urquiola, antiques, bohemian crystals, linen brought from India, sheets with a thousand thread-count, a cellar of only Mexican wines out of respect for local culture.

The hotel is art in every expression. Decorated walls, books in the corners, music that harmonizes. It promotes culture and creates a space for interaction with artists from the community – Island Residence project in Mexico and Arsenal Habana gallery in Cuba, names such as Ernesto García Sánchez, Mari Claudia García, Liudmila López Domínguez and many others.

THE ISLAND OF HOLBOX

The island of Holbox is an oasis of peace and serenity, a small paradise that preserves the charm of an almost virgin island to be explored and protected. Less than two hours northeast from Cancun, it is a world away from the touristic Riviera Maya. The island has less than 1500 inhabitants, sandy roads with no cars, pristine beaches where the concept of time takes on a different meaning and rhythms are dictated by nature.

Experiences

Holbox is an fishermen island where wanderers retire in their hammocks at sunset. The magic of the place allows to discover reserved islands, the sighting of more than 150 species of birds, flamingos, sea turtles, giant stingrays. Travel to the Mayan ruins, a tour through the jungle walking or by canoe to know the culture of this great civilization.

In some season of the year, in the new moon nights, warm waters are visited by some micro-organisms like the plankton, that emit the bioluminescence; It is the ideal moment then, to enjoy a natural spell that illuminates the blue waters. With this phenomenon, comes the visit of the largest fish in the world: the whale shark, swimming with it becomes a torrent of excitement and adrenaline.
