

sikolia

Concept

Stylish suites housed in ancient dammusi dwellings bring together strict monastic interior architecture and refined contemporary elegance.

An elegant and exclusive destination surrounded by ancient white vaults.

A rugged, charming island portrayed in the harmony between metal, glass and the highest quality fabrics. Sikelia, an exclusive, dateless place, synonymous with luxury and tranquillity, a place to discover the many contrasts of the volcanic island of Pantelleria.

Sikelia as an artistic and emotional experience.

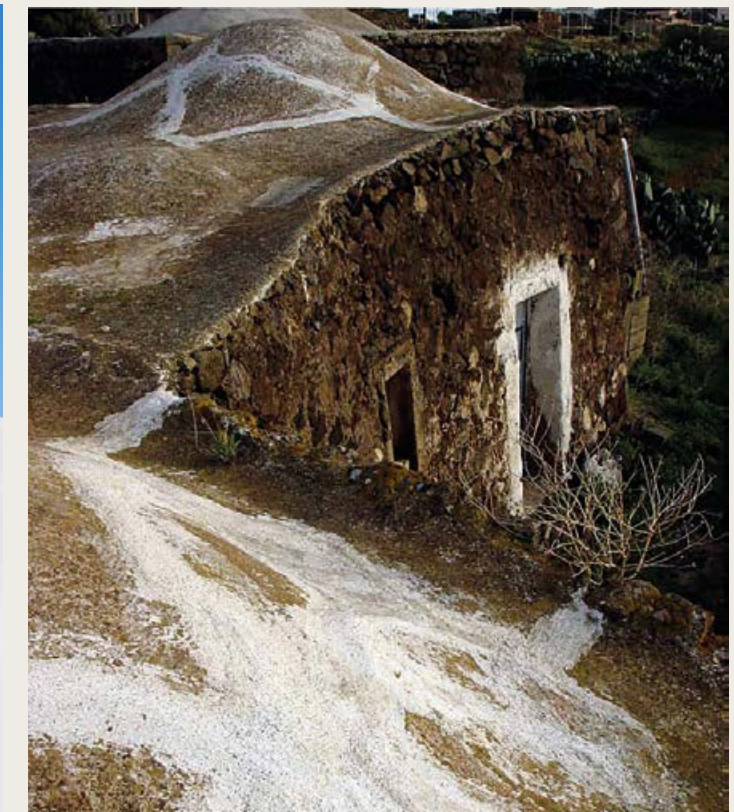

4 words to depict Sikelia and Pantelleria

Timeless is the island of Pantelleria, where our senses are enveloped in a rough and wild nature, and time passes slowly like in the most authentic African lands. Timeless is the word from which Sikelia's name springs, dating back to the Byzantine era, when the Empire was divided into themata.

Hidden is the island of Pantelleria, as she stands alone in the sea between the coasts of Sicily and Africa, an ancient land whose people once worshipped Ishtar the goddess of love. Hidden is Sikelia, concealed within the rounded walls of ancient dammusi dwellings, a haven of peace and serenity.

Unique are the contrasts between the white roofs and the blue sea, the green countryside and the black rocks. Unique are our suites, each one unequalled, elegant and refined.

Intense like the scents of the island and the black of its volcanic rocks. Intense are the authentic flavours of our cuisine, with its typical Arab and African influences.

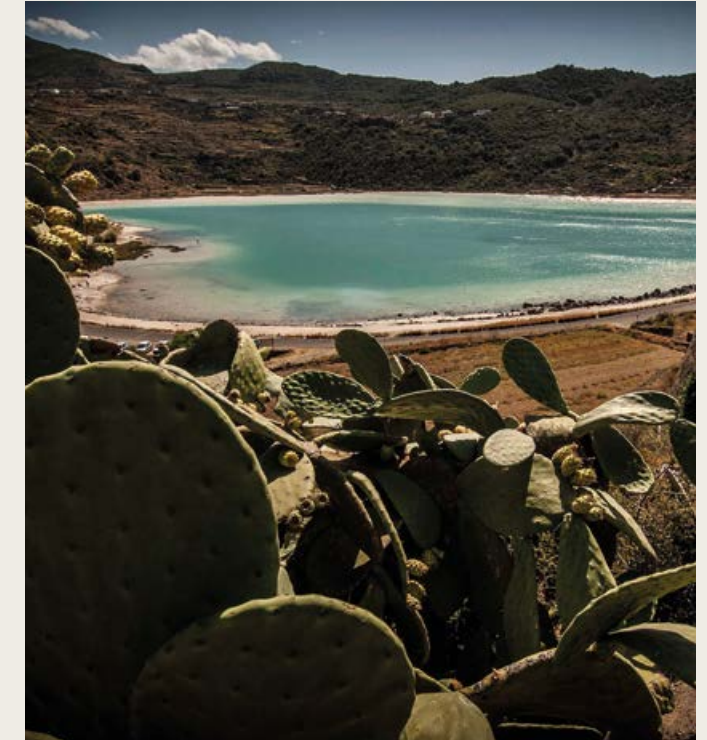

Location - Pantelleria

A wild yet peaceful land in the heart of the Mediterranean, brimming with African-hued sunsets and unforgettable starlit nights: welcome to Pantelleria. Born around 300,000 years ago Homers' "navel of the Mediterranean" is an island rich in contrasts and beauty, whose history is reflected in its colours and its mysteries. Its rugged coastline opposes the green countryside overhanging the sea, while the aroma of Sicilian citrus trees is carried by the wind through typical dammusi dry stone walls combined with the harmony of Arabic forms. Revel in your choice between coves with intense blue waters and hidden caves, and a descent into the sea over smooth rocks. Grace and ruggedness combined, Pantelleria's volcanic origins also offer natural open air spa facilities: from the hot springs of Gadir and the Benikulà Cave natural sauna to the mud of the Lago di Venere. Pantelleria offers regeneration and a rebirth of all senses, through an intense and unique reconciliation with nature. Abandon yourself to its will, rediscover yourself, and unearth the secrets of the land.

Even though Pantelleria's primary focus is wine tourism, the island offers a varied selection of sports and activities that can be adapted and catered to everyone's desire and motivation towards physical exertion all year round.

- ◆ **Diving** – the island is renowned for its rocky and rich seabed, suitable for any and every type of amateur and/or professional excursions.
- ◆ **Boat tours** – to explore the islands' infinite caves and gulfs from a new perspective, or to bask under the Sicilian sun enveloped by deep blue waters.
- ◆ **Excursions** – guests will be provided with a mountain bike rental service to explore the island from within, or a guide book to navigate the numerous walking or trekking trails on the island.
- ◆ **Spa** – Pantelleria as an island is an authentic open air spa, perfect for pampering and relaxation, including the Lago di Venere, the Benikulà cave and the hot springs of Gadir.
- ◆ **Archaeology** – crossroad of the Mediterranean, Pantelleria nurtures treasures and tales of the distant past.

Coste Ghirlanda: “L’Officina” - The Wine Laboratory

Pantelleria is the ultimate and most exclusive destination worldwide for wine tourism, as the island holds the only vineyard worldwide whose practice of cultivation has been recognized as part of **Unesco’s World Heritage**. The best and most unique place to taste, experience, and enjoy wine as a product and an art form.

Magical evenings immersed in the silence of the Pantelleria nights and the scents of the vines before the harvest: this is our Coste Ghirlanda Wine Laboratory. An enchanting place, perfect for relaxing moments sipping a glass of wine at sunset or a Passito later in the evening. A unique corner of Pantelleria, where you can enjoy the authentic flavours of the island’s delicious and evocative cuisine in total tranquillity, and discover the best combinations of Coste wines and local produce.

Keeping with ancient tradition, Pantelleria’s vines yield incredibly aromatic grapes, expertly transformed into wines with unique organoleptic properties. The rare rainfall and the lava soil ensure that all our crops differ a little from year to year.

At L’Officina you will find peaceful corners to enjoy **the sensations of genuine flavours**, while your gaze wanders beyond the Plain of Ghirlanda as it disappears towards the sea. The Coste Ghirlanda Estates are where our produce, wine, olive oil, capers and fruit trees derive from, and are the ingredients that make our Wine Laboratory a recipe for success.

The laboratory can be considered as an experience on its own. Moreover, at Sikelia guests will have the opportunity to privately and freely taste the vineyards’ products and will also have the privilege of priority bookings at the Coste Ghirlanda property.

sikelia

True luxury delivers unexpected pleasures above and beyond what is essential or necessary.

At Sikelia it exists in the small details that differentiate an experience from what is “normal” or “average”.

The key is “common” things done uncommonly well.
