Nordelaia has 12 individually designed rooms & suites.

The mattresses, pillows and duvets in all the rooms and suites are by Cocomat with a focus on layering natural materials (avoiding metal springs) and helping guests to enjoy a relaxing and rejuvenating sleep. There are two types of pillows to choose from, a softer and a harder model, which can be used on their own or mixed and matched.

The duvets deliver coolness during warmer months and keep guests warm and cosy during the colder times of the year.

Bathroom amenities are by [Comfort Zone] and for those who wish to continue using the Aromatic range back at home, it is available to purchase at Reception.

Respecting tradition while simultaneously pushing boundaries was the driving force for the creation of both the architectural vision of our restaurant and the approach to the food we serve.

The menus of our two restaurants – the Bistro and our fine dining L’Orto restaurant – constantly evolves to reflect the seasons. We look to availability and abundance of local and seasonal ingredients, we partner with local farmers to ensure we use their very best produce, we shape our menu to reflect the changing climate and changing tastes throughout the year.

We want every guest to not only dine at Nordelaia but to be part of a gastronomical journey – learning, experimenting and discovering with every bite.

DISCOVERING PIEDMONT

THROUGH FOOD & WINE

COOKING CLASSES

Why not discover Piedmont's rich culinary history, secret recipes and authentic ingredients by taking part in a cooking class with our in-house team led by Charles Pearce.

The team are happy to cater for small and larger groups depending on the needs of the client and do not worry if you are a beginner in the kitchen or are an experienced pasta aficionado, there really is something for everyone to discover in Nordelaia's open plan kitchen.

TRUFFLE HUNTING

Some guests visit Piedmont in the autumn to simply enjoy the delicious white truffle expertly shaved over a plate of homemade plin or roast pumpkin, whilst others are after the thrill of the hunt for the aromatic 'white gold'.

Nordelaia has teamed up with a few trusted local truffle hunters (and their loyal four-legged friends) to offer private truffle experiences around the estate grounds. Guests will learn about the various types of truffles, the history and tales dedicated to this rare and seasonal ingredient.

WINE TASTINGS (AND BEYOND)

Nordelaia's own brand Calligram wines are a great introduction to the region's main grape varieties of Barbera and Dolcetto.

Once you are ready to venture out, there are numerous wineries waiting to be discovered - small producers focusing on biodynamic processes and larger ones selling world-famous wines. There is even an artisanal brewery producing delicious beers a few minutes away and a visit to a local Grappa producer is not to be missed.
